DAILY DECON®

Daily Decon helps protect you against the toxins that enter your body and enhances your body's ability to remove those toxins. Every dose of Daily Decon provides...

- A proprietary blend of potent Antioxidants that help protect cells from free radical damage
- Nutrients that aid the liver in detoxifying harmful chemicals, promoting their excretion from the body

INGREDIENTS LIST:

CAMU Berry
- Has the highest level of Vit C of any known plant
- Vitamin C is a powerful antioxidant that helps neutralize harmful free radical damage to cells
- Anti-inflammatory
- Immune system booster
- Glutathione co-factor

NAC
- An amino acid and antioxidant needed to produce glutathione
- Aid in liver detoxification process
- Helps prevent oxidative stress to cells

Turmeric Root (as Curcumin)
- Powerful anti-inflammatory and antioxidant
- Curcuminoids boost levels of of body's most potent antioxidants such as glutathione and superoxide dismutase
- Anti-viral and anti-bacterial properties
- Glutathione co-factor

Milk Thistle Seed
- Potent antioxidant that aids in liver detoxification
- Helps increase production of new liver cells to replace damaged ones
- Increases glutathione production in the liver
- Anti-inflammatory properties

Alpha Lipoic Acid
- Potent antioxidant in both water- and fat-soluble environments
- Helps regenerate Vitamins C & E as well as glutathione
- Amplifies effects of glutathione
- Works synergistically with B-complex vitamins to support cellular energy production

Black Pepper
- Increases the absorption of curcumin in turmeric

Vitamin E
- Potent fat-soluble antioxidant that helps protect cell membranes from toxic compounds and free radical damage
- Protects the immune system from damage during times of oxidative stress
- Required for liver detoxification
- Glutathione co-factor

Vitamin B6
- Phase I liver detoxification nutrient
- Essential for amino acid and carbohydrate metabolism
- Supports nervous system health
- Glutathione co-factor

Folic Acid
- Phase I liver detoxification nutrient
- Essential nutrient for cell protection, repair, and replacement
- Supports nervous system health
- Glutathione co-factor

Vitamin B12
- Phase I liver detoxification nutrient
- Essential for energy metabolism
- Supports nervous system health
- Glutathione co-factor

Magnesium
- A co-factor involved in over 300 enzyme reactions in the body
- Required for synthesis of glutathione
- Necessary for activating B-vitamins
- Essential mineral for Phase I liver detoxification

Selenium
- A trace mineral that is a component of antioxidant enzymes that help prevent free radical damage to cells
- Crucial in liver detoxification, especially of heavy metals
- Glutathione co-factor
